

MFS FUNDS Performance Record

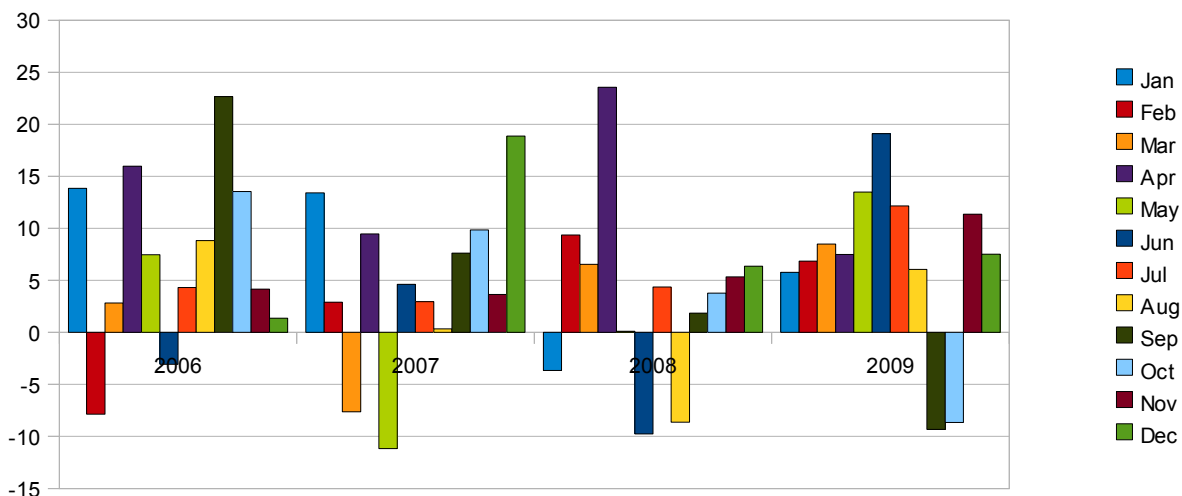

Summary

MFS Funds, our primary goal is to provide our clients with stable managed account that fit a wide range of risk and financial objectives. We achieve this by applying rigorous due diligence measures to verify the trader's records. Additionally, we apply even more measures by investing our own money to track and further verify the results in our own live managed account. We maintain our own test managed account for 4th years before offering these to our clients. We continue to closely monitor all trades to ensure the safety and growth of our own funds.

MFS FUNDS Performance result

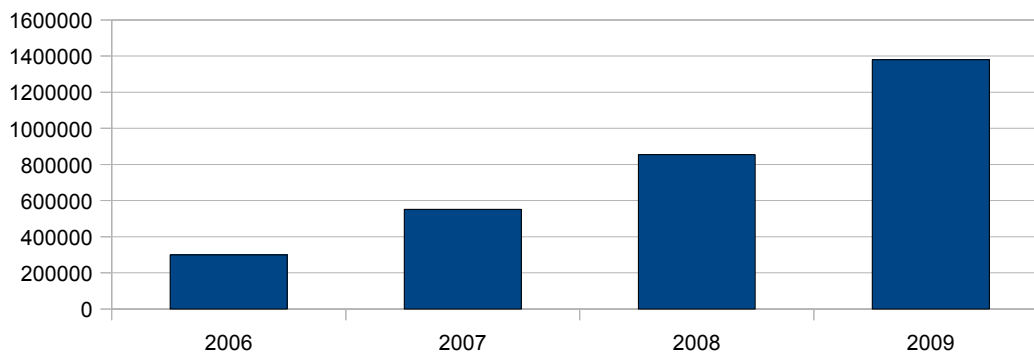

Year	Jan	Feb	Mar	Apr	May	Jun	Jul	Aug	Sep	Oct	Nov	Dec	Annual
2006	13.85	-7.86	2.83	15.96	7.45	-3.07	4.3	8.83	22.65	13.55	4.15	1.36	84.00%

Risk Management

Perform more effectively – quantitative measure

Focus on clear strategic targets – expected returns.

Improve Money Management – management experience

Keeping losses small and gains bigger – professional management

Low leverage – always use low leverage

Analyse market – calculate risk

Since early 2006s, we apply even more measures by investing our own money to track further verify the results in our own live manage accounts. Our professional team has over 18 years of combined foreign currency experience.

Disclaimers: Past performance is not indicative of future results, as returns may vary according to market conditions. Trading in foreign exchange is speculative and may involve the loss of principal; therefore, assets placed under management should be risk capital funds that if lost will not significantly affect one's personal financial well being. No representation is being made that any account will or is likely to achieve profits or losses similar to those shown. Investors may incur into a series of consecutive losses and substantial equity-draw-downs that can deplete their assets before the occurrence of any meaningful profit accumulation
